

Social Engagement Accelerator

Market Segment

4-year, residential, public schools

Users (Personas)

Enrollment and Admissions Staff

- Student Attendance

Director of Student Life

- Track activities for successful ones

Events Director

- Retention
- Year (1st, 2nd 3rd)

Admin & Board Members

- High activity rate
- Benchmarks

Capabilities

1. Dashboard of data

1.1. Student Engagement by Activity, by Year

1.1.1. App usage frequency

1.1.2. Measure of Effectiveness

1.1.2.1. Retention rate within Activities or Groups (eg. Repeat club membership)

- 1.1.3. Survey Responses
 - 1.1.3.1. Sense of Belonging (rating)
 - 1.1.3.2. Free response
 - 1.1.3.3. Types of events they want to see in the future (how they might become more engaged)
 - 1.1.3.4. Drill-down to student-level responses (free text)
- 1.1.4. Dining hall
- 1.1.5. Advisors
- 1.1.6. Resident Assistant (RA)
- 1.1.7. Student government
- 1.1.8. Mental Health Services
- 1.1.9. Club leaders
- 1.1.10. Career Services
- 1.1.11. Dining hall
- 1.1.12. Student Union Board
- 1.1.13. housing data, residence hall event data, student surveys on belonging
- 1.1.14. student wellness/belonging survey data, event participation data
- 1.1.15. orientation attendance data, club sign-ups/rosters, event attendance logs
- 1.1.16. Student Ids and check ins
- 1.1.17. Rosters
- 1.1.18. Student ID checked on food purchase
- 1.1.19. Club participation, Teacher/Student Surveys
- 1.1.20. Students with zero event check-ins/no peer interactions logged
- 1.1.21. sign ins, posts
- 1.1.22. No event/club participation, Well-being surveys
- 1.1.23. club roster, club rush
- 1.1.24. Career event sign-in logs
- 1.1.25. Checking student ID on purchase
- 1.1.26. Room/lounge reservations, event sign-ins
- 1.1.27.

1.2. Filters for

- 1.2.1. Housing (on-campus / off-campus)
- 1.2.2. Year of school
- 1.2.3. Degree & Undergrad/Grad

2. Details about a Student

- 2.1. Attendance rate
- 2.2. Grades
- 2.3. Financial status / unpaid balance (bills)
- 2.4. Age
- 2.5. Gap-year
- 2.6. Degree / Major (number of majors)
- 2.7. Year
- 2.8. Housing
- 2.9. In-state/out-of-state
- 2.10. Transfer status
- 2.11. Full-time/part-time

3. Student-Facing Features

- 3.1. Referral Services (based on negative sentiment) (intervention)
- 3.2. Campus Map of Events (by Date & Time filter)
- 3.3. AI chatbot for finding engagement opportunities (events)
- 3.4. Gamification of engagement / Rewards system / Third Party Integrations with other software vendors

4. Staff-Facing Features

- 4.1. Campus Map of Events (by Date & Time filter)
- 4.2. Search and View a Student
- 4.3. Referral to... (university-defined processes or systems)
 - 4.3.1. Counselor
 - 4.3.2. Student Mentor
 - 4.3.3. Professional Development Activities
- 4.4. At-Risk Student Alert / List

Prioritization Material

Green = prioritized, yellow = maybe/post-launch

Feature List

1. Feature: Login Screen

“As a user, I can go to the login screen, enter my username and password, and get access to the product.”

Ballpark Time Estimate: 1 week

2. Feature: My User Profile

“As a user, I can click the profile icon to manage personal settings such as choosing my language, changing my password, updating my email address, and other functions.”

Ballpark Time Estimate: 1 week

3. Feature: Password Reset

“As a user, if I forget my password, I can reset it using a multi-step email process.”

Ballpark Time Estimate: 1 week

4. Feature: Navigation Menu

“As a user, I can access different screens of the product through a central navigation menu.”

Ballpark Time Estimate: 1 week

5. Feature: Mobile Support

“As a user, I can access the product from my laptop, tablet, or phone.”

Ballpark Time Estimate: 1 week

6. Feature: Help Menu

“As a user, I can click the question mark (?) icon to receive context-sensitive help about the screen I am currently viewing.”

Ballpark Time Estimate: 1 week

7. Feature: Dashboard

“As a user, I see the general dashboard that contains all of the data points I need, so that I can explore the data and make decisions.” This includes charts like “Student Engagement by Activity” (or by Year) as well as Filters like “Degree/Major.”

Ballpark Time Estimate: 1 week

8. Feature: Drill-Down

“As a user, I want to select a portion of a chart or metric to see a list of students that comprise that metric.” This includes things like selecting an activity type (“Chess Club”) to see a list of students within that activity (members of the “Chess Club”).

Ballpark Time Estimate: 1 week

9. Feature: Student Details

“As a user, I can select a single student name to view the full details of that student.” This includes details like attendance, age, degree/major, residency status, housing status, number of clubs, number of events, survey responses, etc.

Ballpark Time Estimate: 1 week

10. Feature: Search

“As a user, I can search for a student by name to quickly access their Details screen.” (Rather than drilling down to find them.)

Ballpark Time Estimate: 1 week

11. Feature: Create New Charts

“As a user, I want the ability to edit or create new charts based on the data, so that I can identify and highlight new insights.”

Ballpark Time Estimate: 1 week

12. Feature: Historical Score Comparison

“As a user, I want to compare the student’s engagement over time (such as in a ‘line chart’), so that I can see if students' engagement is reducing/increasing over time.”

Ballpark Time Estimate: 1 week

13. Feature: Baseline Score Calculation

“As a user, I want to know the baseline score for what an 'engaged' student looks like, so I can measure student engagement in comparison to the baseline.”

Ballpark Time Estimate: 1 week

14. Feature: Student Communication

“As a user, I can send an email or text message to the student, so I can contact them.”

Ballpark Time Estimate: 1 week

15. Feature: Referrals

“As a user, I can see referral services that I can refer a student to, or recommended engagement activities that a student could participate in, so that I can suggest one or more of these options to the student in an effort to improve their engagement.”

Ballpark Time Estimate: 1 week

16. Feature: At-Risk Student List

“As a user, I can easily see students at risk of low engagement, so I can more rapidly focus my time and energy on those students.”

Ballpark Time Estimate: 1 week

17. Feature: Interactive Map

“As a user, I can view the Campus Map of Events (by Date & Time filter).”

Ballpark Time Estimate: 1 week

18. Feature: Share

“As a user, I want to share a dashboard, chart, or student detail with another staff member, so that I can work together with them to help a student.”

Ballpark Time Estimate: 1 week

19. Feature: Peer Mentoring

“As a user, I want to connect a low-engaged student with a high-engaged student, so that they can help each other and it will not put a burden on my resources and budget.”

Ballpark Time Estimate: 1 week

W1: Login Screen

W2: My user Profile

W3: Password Reset

W4: Navigation Menu

W5: Dashboard

W6: Student Details

W7: Search

W8: Create New Charts

W9: Baseline Score Calculation

W10: Drill-Down

W11: Historical Score Comparison

W12: At-Risk Student List

Parking Lot:

- **Peer Mentoring:** Would take longer to develop and other features already help with this.
- **Student Communication:** Requires integration with institutional email/SMS systems and FERPA review.
- **Referrals:** Referral pathways are defined differently through each school.
- **Help Menu:** Build the help documentation after you have an idea of what questions users usually ask.
- **Share:** Users already have many ways to share information.
- **Interactive Map:** School would need to add itself and a simple picture of the map can be an easy implementation in the meantime (needs to show live events).
- **Mobile support:** Most professional systems will be desktop or laptop and while not perfect most desktop applications can be used on mobile as is.
