- Microsoft Office
- Zotero

CERTIFICATIONS

Argos Training Certificate
Evisions, June 2026

AI Fluency Framework and Foundations
Anthropic, May 2026

PROFESSIONAL EXPERIENCE

People and Culture Success Intern

Evisions | Remote | May 2026 – July 2026

- Rotated across six departments, including product, engineering, training, marketing, operations, and sales, to learn how a product moves from design through pricing and sale in a real B2B environment.
- Simulated the full lifecycle of a data dashboard product, applying department-specific requirements from six teams to a single hypothetical build.
- Presented research findings to executive stakeholders, translating a cross-functional training exercise into clear, actionable takeaways.

QA Tester

Fintegrate Technology | Trussville, AL | May 2026 – June 2026

- Built 23 automated tests across five test suites, verifying role-based permission boundaries across three user types and core navigation, dashboard, and notification workflows within FusionDMS.
- Isolated a missing test-environment dependency that blocked four collections-module tests, flagging the gap directly to the CTO ahead of a key project checkpoint.
- Distinguished confirmed test coverage from unresolved edge cases, marking uncertain selectors and blocked scenarios for follow-up rather than reporting false completion.

Magazine Co-Writer

UAH College of Business | Huntsville, AL | January 2026 – April 2026

- Interviewed 20 honorees for the college's Top 20 of 2026 program, producing 20 publication-ready feature stories in AP style.
- Organized a multi-writer team's progress through shared tracking, keeping every story on schedule for publication.
- Refined drafts through peer review, catching consistency errors before final submission to protect the section's editorial quality.

Technical Writer Intern

Book Systems Inc. | Huntsville, AL | January 2025 – May 2025

- Modernized technical manuals for three library-management products, replacing outdated instructions with user-centered revisions.
- Executed 9 to 10 revision tasks per weekly sprint alongside the writing team, sustaining a consistent output pace over five months.
- Upheld a unified documentation style across all three product lines, reducing inconsistency for end users switching between manuals.

Brewista

7Brew Coffee | Huntsville, AL | May 2024 – October 2025

- Delivered fast-paced customer service as part of a team, maintaining an organized workspace through daily shift checklists.
- Replenished product inventory through consistent tracking, preventing stockouts during peak drive-thru hours.
- Cultivated customer rapport by communicating company promotions, helping drive a 10 to 15% increase in total sales.
