Most campuses have the data to identify a struggling student. It just lives in ten different systems and nobody is looking at all of them at once.

Join us for a live webinar where we walk through how institutions like UAH built a connected reporting foundation with Argos, and how the Social Engagement Accelerator takes that a step further by turning engagement signals into real advisor action.

If you have ever wanted to make the case for a better student success data strategy at your institution, this one is for you.

Image

A promotional graphic for a webinar. The background is light blue with a repeating pattern of graduation caps. At the top, it says 'FREE WEBINAR — REGISTER NOW' in blue. Below that is the title 'From Fragmented Data to Early Intervention' in large, bold, dark blue letters. Under the title, there are three sections: 'DATE' with a calendar icon, 'DURATION' with a clock icon, and 'FOR' with a group of people icon. Each section has a dark blue background and white text. Below these is a section titled 'WHAT YOU WILL LEARN' with four light blue boxes containing the topics: 'Connected Reporting Foundations', 'Student Engagement Signals', 'Advisor Action Workflows', and 'SEA Product Walkthrough'. At the bottom left is the 'SEA' logo with 'STUDENT ENGAGEMENT ACCELERATOR' underneath. At the bottom right is a dark blue button with white text that says 'SAVE YOUR SPOT'.
