CSR

CSR Strategy	• Build a lasting partnership with the Foundation instead of a one-time gift • Design programs that reach all six specialty areas, since students pursue creative writing, dance, math-science, music, theatre arts, and visual arts, not just STEM • Focus each activity on real-world career skills, so every student sees a path from their craft to a future job
Volunteer Days	• Send employees to the ASFA STEM Expo as judges or mentors for math-science students • Support the ASFA Performance Season by helping with event logistics, ushering, or promotion for music, dance, and theatre students • Help staff the VM Gallery or a student art show for visual arts students • Offer paid volunteer hours for staff to support the school's open house across all departments
Fundraising Campaigns	• Start a named scholarship, such as the Evisions Scholarship, and open it to students across all six specialty areas, not just one • Time a giving push around results the school already has, like the millions in scholarships its seniors earn each year, to show donors real impact
Matching Employee Donations	• Match employee gifts to the Foundation dollar for dollar • Run the match during one set giving period each year to build momentum
Charity Walks/Runs	• Sponsor a team at an existing Foundation walk or run, or help start one if the school does not have one yet • Invite students from all specialty areas to participate, using the event to raise both funds and visibility for the Foundation
Skill-Sharing Workshops	• Offer a data or coding workshop for math-science students • Offer a resume and portfolio workshop for seniors in every specialty, since creative writers, dancers, musicians, actors, and visual artists all need to present themselves professionally • Offer a marketing and branding workshop, since Evisions staff can teach students how to build a personal brand around their craft, whether that is a portfolio, reel, or writing sample • Offer a basic business skills session covering budgeting, contracts, and freelancing, which applies directly to careers in the arts
